

K TEJA

Lead Full Stack Engineer

Bangalore, Karnataka 560037, India

[+91-7259288352](tel:+91-7259288352) | ktejaat1995@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Lead Full Stack Engineer with 7.5+ years of experience designing and delivering scalable web, mobile, and backend applications across healthcare, enterprise, SaaS, and cross-platform ecosystems. Expertise in Angular, React Native, Ionic, NodeJS, NestJS, PostgreSQL, Firebase, and AWS. Strong experience building enterprise-grade applications with a focus on scalable architecture, accessibility (WCAG), performance optimisation, secure backend systems, reusable component architecture, and production deployments across Android, iOS, and Web platforms.

Skilled in full application lifecycle ownership, including system design, frontend architecture, backend API development, cloud deployment, CI/CD collaboration, code reviews, accessibility implementation, and cross-functional team coordination.

CORE SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, Bootstrap, TailwindCSS, Angular, Ionic Framework, React, React Native, NextJS, Storybook

Backend: NodeJS, NestJS, ExpressJS, REST APIs, TypeORM, Firebase, Supabase, MongoDB, PostgreSQL, MySQL, MariaDB

Mobile Development: Android, iOS, Capacitor, Cordova, SQLite, Secure Storage, Capacitor and Cordova Plugins, Play Store & App Store Deployment

Cloud & DevOps: AWS EC2, AWS S3, PM2, Git, GitLab, BitBucket, CI/CD, SonarQube, GitHub Actions

Architecture & Engineering: System Design, Scalable Architecture, Accessibility (WCAG), Modular Architecture, State Management, Performance Optimisation, Secure Application Development, Obfuscation, API Validation, Code Reviews, Unit Testing

Tools: Figma, Adobe XD, Jira, Confluence, LogRocket, SauceLabs

PROFESSIONAL EXPERIENCE

Mphasis Limited - Senior Software Engineer

Bangalore | Oct 2024 - Aug 2025

Client: Schneider Electric

- Developed and maintained an enterprise-grade full-stack application supporting scalable frontend and backend workflows across multiple business modules.
- Improved application stability and production reliability, reducing critical production defects by 20% and decreasing recurring QA issues across release cycles.
- Designed and implemented robust backend validation systems, reducing invalid API request processing by 15% and improving overall API reliability.
- Enhanced application security posture by resolving SonarQube-reported vulnerabilities and security hotspots to 0 through secure engineering practices.
- Contributed to discussions on scalable architecture, pull request reviews, sprint planning, and backend design improvements, helping streamline cross-functional development workflows.
- Created ER diagrams, API documentation, and technical onboarding resources to improve developer onboarding efficiency and cross-team collaboration.
- Improved frontend and backend unit test coverage to 90%, increasing code reliability, reducing regression issues, and improving long-term maintainability.

Tech Stack: Angular, NestJS, PostgreSQL, TypeORM, NodeJS, SonarQube, Git, Confluence

ACL Digital - Senior Software Engineer

Bangalore | Sept 2022 - July 2024

Client: Virgin Pulse

- Developed and maintained cross-platform healthcare applications for Android, iOS, and Web using Ionic, Angular, and React Native.
- Achieved 100% compliance with WCAG 2.1 AA standards across core mobile and web applications, significantly expanding user accessibility.
- Led 8+ successful production deployments to the Play Store and App Store with zero downtime incidents.
- Improved application performance and stability, reducing critical app crashes by 35% and decreasing login failure rates.
- Built scalable and reusable frontend components following modular architecture principles.
- Authored a technical whitepaper on [Hybrid Mobile Application Development](#).
- Performed accessibility testing using Axe DevTools, JAWS, VoiceOver, and accessibility debugging tools.

Tech Stack: Angular, Ionic, React Native, TypeScript, WCAG, Capacitor, Firebase, Xcode, Android Studio

Freelance - Full Stack & Mobile Engineer

Remote | Apr 2022 - Sep 2022

- Delivered 5 cross-platform mobile and web applications for education and enterprise clients, managing projects valued at up to \$15k.
- Built secure file transfer systems using Wi-Fi Direct, Bluetooth, USB communication, and encryption libraries.
- Developed hybrid applications using Angular, Ionic, React Native, Firebase, NodeJS, and MongoDB.
- Implemented authentication systems, chat modules, responsive UI architecture, and reusable component libraries.
- Successfully managed and delivered the full application lifecycle for 5 projects, from initial UI design to final production deployment.

Koach AI Technologies Pvt. Ltd. - Engineer

Bangalore | Jan 2021 - Apr 2022

- Developed scalable mobile and admin applications, serving over 5,000 active users/students, with secure local storage and a reusable architecture.
- Built backend systems using NodeJS, MongoDB, MariaDB, and AWS S3.
- Improved application performance by reducing average load time by 18% through optimised data handling and efficient application structures.
- Managed AWS EC2 deployment workflows and backend service integrations.

Tech Stack: Angular, Ionic, NodeJS, AWS

Sabado Technologies - Associate

Bangalore | Mar 2020 - Sept 2020

Client: GE Healthcare

- Developed healthcare-focused hybrid mobile and web applications for GE Healthcare.
- Refactored applications from Ionic to React Native to improve maintainability and performance.
- Built responsive telepresence and scheduling platforms deployed across enterprise environments.
- Orchestrated end-to-end development of 5 application modules, streamlining deployments and decreasing critical defects by 15%, resulting in a more stable platform for enterprise users and clients.

Entransys Private Limited - Associate

Bangalore | Apr 2019 - Feb 2020

Client: GE Healthcare

GDWKCG - Freelance Mobile Application Developer

Remote | May 2018 - Mar 2019

Pickcel - Web Developer Intern

Bangalore | Feb 2018 - May 2018

KEY ACHIEVEMENTS

- Led accessibility implementation for mobile and web applications in line with WCAG standards.
- Developed secure cross-device file transfer systems using Wi-Fi Direct, Bluetooth, and USB communication.
- Delivered multiple enterprise and healthcare applications across Android, iOS, and Web platforms.
- Maintained high release stability with successful production deployments and minimal downtime.

EDUCATION

Bachelor of Technology (Computer Science & Engineering)

Tirupati, Andhra Pradesh | 2017

Yogananda Institute of Technology and Science

Board of Intermediate

Tirupati, Andhra Pradesh | 2013

NRI Junior College

Secondary School Certificate

Tirupati, Andhra Pradesh | 2011

Sree Vidyanikethan International School
